Newsletter

February 2, 2010

Greetings to All,

Curious, how many of you all seen your shadow today? Not a problem here my old Shadow has been underfoot all day when available. Birthday coming up very soon, the old gal will only be 13 and at times still seems to be a puppy. Now as to that overweight porkier in PA predicting the rest of the winter weather have to wonder whether that ground rat oughta come on down for a bit of "Okie" adjustment?

The 1/10 newsletter is enclosed with the 2/10 for what its worth, was already late getting 1/10 out and then the printer took a huge dump and is just now operational again. Anyways, anyone is most welcome to jump on this mule and ride it for the best they can, seems it goes lame on me from time to time.

National News, sincerely hope everyone received their Winter volume of our National Quarterly, the TTG, if not please let me know, that will be corrected. Another great job from Paul and the TTG staff, they are always looking for additional copy info / articles so forward what you can in whatever form to help them out at submissions@coht.org.

2/10?, seems hard to believe this one has been stuffed in the post rider's saddle bags for delivery for eight years now but then some post is better than no post. So many of the books, journals, documentation gleaned thru in the last several years has proven communication is so very important. It matters in everything we want to do and be in our hobby and most importantly in life itself.

In closing can't / won't apologize for getting better or faster info to you all, do what's availability as time allows and wish all great endeavors on their historical pursuits.

Best to All, Take / Give Care,

Brad Pickle
